-Keyboard playing, learning, practicing, and performing

-Teaches children and parents that WORKING on music can be fun.

*****-Singing Solfege (do re mi) *****

-Learning letter names (C D E)

- Note reading

-Ensemble playing (playing music as a group)

-Rhythm reading and playing

ENROLL TODAY!

*****THE IMPORTANCE OF SOLFEGE:**

Solfege is the language of the well-educated musician. When we sing the solfege syllables while reading notes or playing the keyboard, we develop a strong sense of tonality and relative pitch. Each solfege note sung strengthens the connection between what is heard, what is seen and what is played. Singing solfege teaches us to internalize the music. With time, and practice, you and your child will begin to hear the notes that you read before those notes are even played on the keyboard.
