

HOW TO SAVE A SONG

1. Click the song you want to play
(you might need to right-click)
2. When a window pops up asking what you want to do, select
“Save this file”
or
“Save this file to my computer...”
3. Navigate to the folder on your computer where you want to save the song
4. Click “Save” or “OK”

IMPORTANT:

You can click the song (where you have it saved) and your computer’s player will automatically open.

BUT

if you want to add the song to your iPod or other mp3 player, you will need to **IMPORT** the song into the music program on your computer (like iTunes or Windows Media Player).
