

**RULE #1**

**IF A CHORD HAS  
KISSY NOTES**

- Name the  
top kissy note
- Put a "7" after it

Name these  
chords:

G7

"Kissy Notes" are two notes that are right next to each other on the keyboard. You can always see them on the music because they are one line note and one space note that look like they are "kissing" (eeeew!)

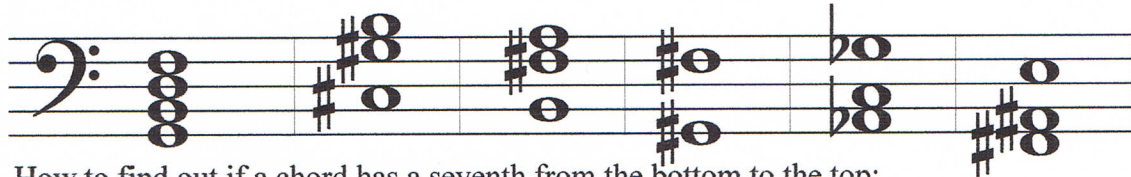

**RULE #2**

**IF A CHORD HAS  
A SEVENTH FROM  
THE BOTTOM TO  
THE TOP**

- Name the  
bottom note
- Put a "7" after it

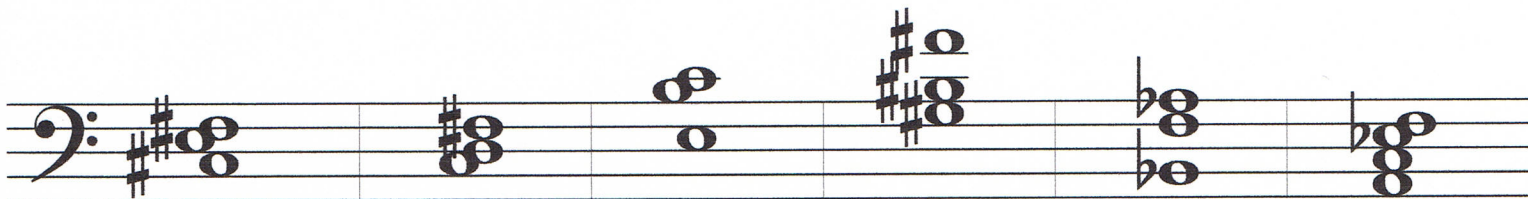

Name these  
chords:

G7

How to find out if a chord has a seventh from the bottom to the top:  
Put the bottom note on your thumb and then count (on your fingers) to the top note

Write the correct rule number and then name these chords:
